FICTIONAL PRACTICE NOTICE

Original simplified sample for Anchor. This was not issued by a government agency. It is based on the CF377.6 (8/13) form family and deliberately contains conflicting dates.

County: Santa Clara County
Notice Date: October 9, 2026
CalFresh information request practice scenario

The first section asks for information about a reported income change.
Submit the requested items by October 23, 2026.
[X] Pay stubs for September 2026

An additional section gives a different date for the same request.
Submit the requested items by October 26, 2026.

This practice sample does not explain which date controls or whether a later section replaces the earlier one. Both dates are visible, so an automated tool should not silently choose one. Review the complete original correspondence and ask the county to clarify the request before relying on a deadline or exporting a reminder.

All requests and dates above belong only to this fictional practice scenario. No name or case number is included.
